Detailed Findings

| Issue             | Severity | Description                                            | SEO Impact                                                                        | Recommended Fix                                             |
|-------------------|----------|--------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------|
| Provider Required | High     | No supported backlink provider is currently connected. | Backlink authority intelligence cannot be measured until a provider is connected. | Connect a supported backlink provider and rerun the report. |

Error Analysis

| Link URL      | Error Type        | Explanation                                            | Impact                                                                            | Recommended Action                                          |
|---------------|-------------------|--------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------|
| Provider Data | Provider Required | No supported backlink provider is currently connected. | Backlink authority intelligence cannot be measured until a provider is connected. | Connect a supported backlink provider and rerun the report. |

Recommendations Matrix

| Priority | Action                                                                                                                                               | SEO Impact                                                                 | Business Impact                                                               |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| Low      | Backlink analysis requires external authority data that cannot be discovered through website crawling alone.                                         | Supports sustained internal link health and search engine discoverability. | Improves reporting quality and lowers the risk of unnoticed link regressions. |
| High     | Connect one of the supported providers to access Referring Domains, Backlinks, Anchor Text Distribution, Domain Authority, and Link Quality Metrics. | Enables authority metrics that cannot be measured through crawling alone.  | Improves strategic decision-making with complete backlink intelligence.       |
